

# YUNUS EMRE ATAY

## Oracle Database Administrator

### PERSONAL INFORMATION

---

- Full Name: Yunus Emre ATAY
- Phone: +90 507 884 0917
- Email: yns.emrata@gmail.com
- Location: Ankara / Turkey
- Date of Birth: March 29, 2000
- Military Service: Completed
- LinkedIn:  
[linkedin.com/in/emreatay](https://www.linkedin.com/in/emreatay)
- Personal Blog: [oraclius.com.tr](https://oraclius.com.tr)

### EDUCATION

---

- University: Firat University
- Department: Computer  
Engineering
- Years: 2019 – 2023

### TECHNICAL ABILITIES

---

- Problem Solving
- Data Analysis
- Research and Documentation
- Strong Analytical Thinking

### LANGUAGES

---

- Turkish – Native
- English – Intermediate (B1)

### ABOUT ME

---

During my Computer Engineering education, I gained strong theoretical knowledge, which I've been actively applying since September 2023 as an Oracle Database Administrator (DBA). I've primarily focused on managing large-scale data, along with data security, backup and recovery processes, and Oracle technologies such as Data Guard and RAC. I have solid experience in Linux environments, and I've developed my skills in data analysis, ETL operations, and ensuring system continuity. I also maintain a personal technical blog at [oraclius.com.tr](https://oraclius.com.tr), where I share my knowledge and experiences. I'm a solution-oriented DBA with strong analytical thinking and a continuous learning mindset.

### WORK EXPERIENCE

---

MINISTRY OF INTERIOR AFFAIRS OF REPUBLIC OF TURKEY

POSITION: ORACLE DATABASE ADMINISTRATOR (DBA)

DATES: SEPTEMBER 2023 – PRESENT

RESPONSIBILITIES:

- MANAGING ORACLE DATABASES: INSTALLATION, CONFIGURATION, BACKUP, RECOVERY, PATCHING, AND UPGRADES
- MONITORING AND IMPROVING DATABASE PERFORMANCE (AWR, ADDM, ASH REPORTS, TUNING SQL & PL/SQL)
- ADMINISTERING DATABASES ON LINUX SERVERS AND ENSURING HIGH AVAILABILITY
- MANAGING DATABASE ACCESS, SECURITY, AND USER ROLES
- CONFIGURING AND MANAGING ORACLE DATA GUARD, RAC, ASM, RMAN, GOLDENGATE
- HANDLING ETL PROCESSES: PROCESSING RAW DATA AND LOADING IT INTO THE DATABASE FOR ANALYSIS
- DEVELOPING AND MAINTAINING MONITORING DASHBOARDS AND ALERTING SYSTEMS WITH GRAFANA, PROMETHEUS, INFLUXDB, TELEGRAF, AND ELASTICSEARCH
- SUPPORTING POSTGRESQL AND OTHER OPEN-SOURCE DATABASES FOR INTEGRATED ENVIRONMENTS
- COLLABORATING WITH DEVELOPMENT TEAMS TO OPTIMIZE QUERIES AND DESIGN EFFICIENT DATABASE SCHEMAS
